## DIVORCE COURT IS BUSY PLACE

Four Petitions For Separations Filed Yesterday-Various Grounds Are Named.

To appeal to the divorce courts after more than a third of a century of happy married life, was the experience of Mrs. Emma Haight, who on Monday afternoon filed a divorce action in the circuit court against her husband, William Height,

Mr. and Mrs. Haight were married in 1877, and for 33 years lived happily. Four years ago Mrs. Haight charges her husband became cruel and brutal forcing her to leave him. Of late her husband has taken to loafing around saloens and frequently

has come home drunk, she charges. He has failed to support her during

port of the children, Helen and Har- Wolfe the negative. The audience later interested in the campaign. old, for whose custody she asks. ### "It's Magic ! My Big Wash Done in 40 Minutes Without Rubbing!"

This is the biggest thing that has happened in a generation for the housewife. For two-and-a-half cents, one big wash can be done in little over half an hour without your having to do one particle of rubbing. "Yes," you probably say, "that's easy. Guess they use lye or something that will ruin clothes!" You never were more mistaken. That's the wonderful part of this great discovery-

# The New Wash-Day Wonder

There's no lye, no acid, no potash, no caustic, none of the clothes-eating, clothes ruining ingredients that have been used for so many years in modern laundry materials. There isn't an iota of anything in it that can harm the most delicate fabric. Just get a 10c package of Washee Wafers for your next wash, and 40 minutes after you get your clothes in the boiler, the "big wash this week" can be hanging on the line, white as the driven snow-all done without any rubbing whatever-nothing to do but rinse the clothes and hang them up to dry.

All that back-breaking, hand-reddening, galley-slave, cart-horse work at the wash-board is over forever. The clothes-tearing washing machine, too, is out of business. You can now do your own laundry work, if you never did it before, and save big laundry bills. Washee Wafers act on a new, scientific, steam-

combustion principle, millions of little steam globules

form in the water and constantly explode, making the

water look like bubbling champagne. Cleans everything,

voolens, cottons, silks-anv material, to perfection. Enough in Each Package for 4 Big Washings
